V. Adults Residing in Facilities with Seven or More Beds (Excluding DCs)

Planned Activities

Statement: RCOC continues to ensure that individuals with developmental disabilities have more choices in living options regardless of the severity of their disability.

Objective: RCOC will place only those adults with medical issues or challenging behaviors in seven or greater bed facilities.

- RCOC will continue seeking appropriate placement in smaller facilities for these consumers and to support creative services and supports which would allow placement in existing small facilities, as well as development of new small facilities as needed, utilizing appropriate services and supports to ensure success for these consumers.
- RCOC will strive to improve the services and supports available to those in these larger facilities to ensure the best possible developmental experience.

Progress: A. During public meetings, RCOC had 170, or 2.26%, of adult caseload residing in a CCF (7+ beds). Placements to 7+ bed facilities are at family request and/or due to specialized services. RCOC also has several long-term care providers with facilities in this category, they are not a traditional large facility, they are cottages of 4-6 beds and one facility is a converted apartment complex.
